GEVACRIL

FLUORACRYL[®] RODS & BARS

GEVACRIL[®] performances:

High luminance and high light diffusion

Highest flexibility: you can rely on our stock and do not need to order big quantities

The FLUORACRYL grades will give your POP and POS a high light and high-quality profile

High light-guiding and therefore suitable for any light application and ideal for colour-lighted objects

Top quality surface, completely smooth, fantastic, unbeatable tolerances

High break resistance, eleven times more than glass

Exceptionally good resistance to weather conditions and aging indoor and outdoor

Easy to form, curve and process

Easy to glue also with solvent adhesives

Max. service temperature: $\pm 80^{\circ}\text{C}$

Approvals: in compliance with EC Directives and FDA Regulations

Light: they are half the weight of silicate glass
